

The New Mexico Center for Nursing Excellence is proud to have hosted this annual gathering of our state's nurse educators for the past decade!

10th Annual New Mexico Nursing Educators Conference

Nursing Education and the Resurgence of Primary Care Nursing: Expanding the Role of the Registered Nurse

Join us June 11-12 at a new venue: Hotel Albuquerque at Old Town
\$195 for 2-day conference (Includes lunch)

Primary care in the United States is in urgent need of transformation. The current organization and capacity of our primary care enterprise are insufficient to meet the healthcare needs of the public. Who can help alleviate the pressures on primary care? Nurses!

RNs are the ideal team members to help expand primary care capacity, yet they have been woefully underutilized in primary care settings. Practices that have deployed registered nurses in enhanced roles have shown improved health outcomes, reduced costs, and enhanced patient satisfaction.

Plan to join us to explore educational strategies that support practice at the full scope of nurse licensure.

We invite all nurses and healthcare professionals from the academic and practice arenas to participate.

FEATURED SPEAKERS

Margaret Flinter, APRN, PhD, FAAN, FAANP, c-FNP, Senior Vice President & Clinical Director, Community Health Center, Inc., the Weitzman Institute

Donna Thompson, RN, MS, Chief Executive Office, Access Community Health Network
