

MISSION VISION & VALUE

PROGRAM LOCATIONS

MISSION

The mission of the New Mexico Nursing Education Consortium (NMNEC) is to prepare nurses for entry and educational advancement through developing and sustaining a resource-efficient and unified system of accessible, innovative, and state-of-the-art nursing education.

VISION

The New Mexico Nursing Education Consortium is a collaborative partnership with a vision for nursing education that addresses the healthcare needs of New Mexicans by preparing a qualified, diverse, and professional nursing workforce.

VALUE TO EMPLOYERS

Nursing employers are excited to work with nurses who have completed the common statewide curriculum. They are also looking for nurses who have completed a conceptually-based program — that's NMNEC!

Go to www.nmnec.org/partnerschools to see the locations of the participating nursing programs. Schools are implementing the common curriculum at different times throughout the state as circumstances allow.

NMNEC NURSING PROGRAMS & LOCATIONS

- Central New Mexico Community College, Albuquerque
CNM-West, Rio Rancho*
- Clovis Community College, Clovis
- Doña Ana Community College (NMSU), Las Cruces
- Eastern New Mexico University-Roswell, Roswell

WHAT IS THE NMNEC PROGRAM?

The NMNEC program is a collaborative of every state-funded nursing program across the state of New Mexico.

The consortium has created a common nursing curriculum providing seamless transfer from one school to another.

If a student starts the NMNEC program at one state-funded school but finds they need to relocate to another New Mexico community, then they can continue their nursing studies at a NMNEC school in or near their new location.

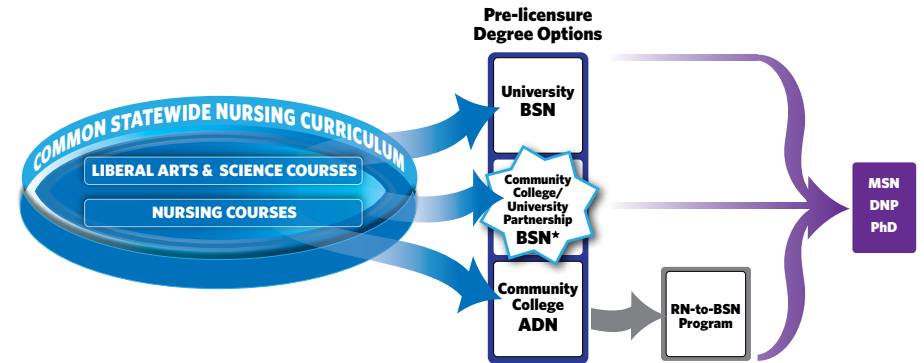

ADN OR BSN?

Students may decide whether they want to fulfill their goals with an ADN (Associate Degree in Nursing) or a BSN (Bachelor of Science in Nursing). A bachelor's degree offers more opportunities for advancement at work and in the educational arena. If students choose the ADN track and want to continue their education at a later date, they may enroll in an RN-BSN program.

Nursing Educational Model

★ BSN is offered on community college campuses. Baccalaureate and Associate degrees are conferred concurrently.

| Color Key | |
|---------------------------------------|--|
| ■ | BLUE = NMNEC Curriculum |
| ■ | GRAY = RN-to-BSN Program outside of the NMNEC Curriculum |
| ■ | PURPLE = Nursing Graduate Education beyond the BSN |

| Degree Key | |
|------------------|---------------------------------------|
| ADN | = Associate Degree in Nursing |
| BSN | = Baccalaureate of Science in Nursing |
| RN-to-BSN | = Post-licensure BSN |
| MSN | = Master of Science in Nursing |
| DNP | = Doctor of Nursing Practice |
| PhD | = Doctor of Philosophy in Nursing |

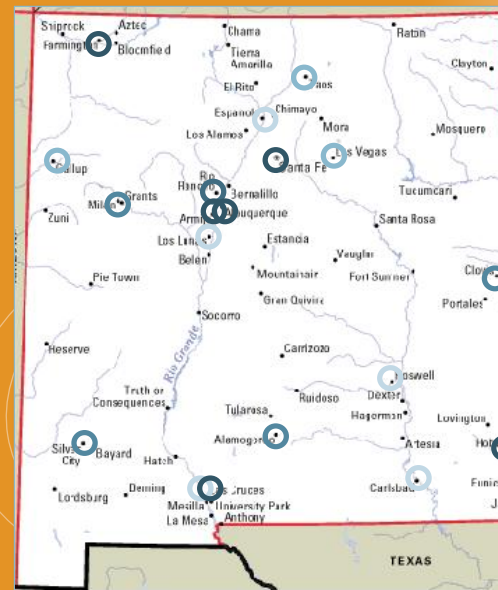

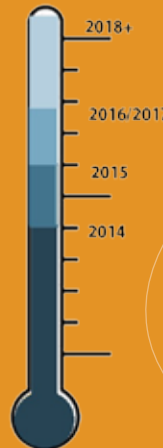

THREE NMNEC PROGRAM OPTIONS

NMNEC has created a common nursing curriculum throughout the state that allows students to choose whether they want to pursue an ADN (Associate Degree in Nursing) or a BSN (Bachelor of Science in Nursing). They choose between three options:

- Co-enrollment for ADN and BSN at a community college with a partnering university
- ADN at a community college
- BSN at a university
