

Financially Invest in New Mexico's Nursing Education

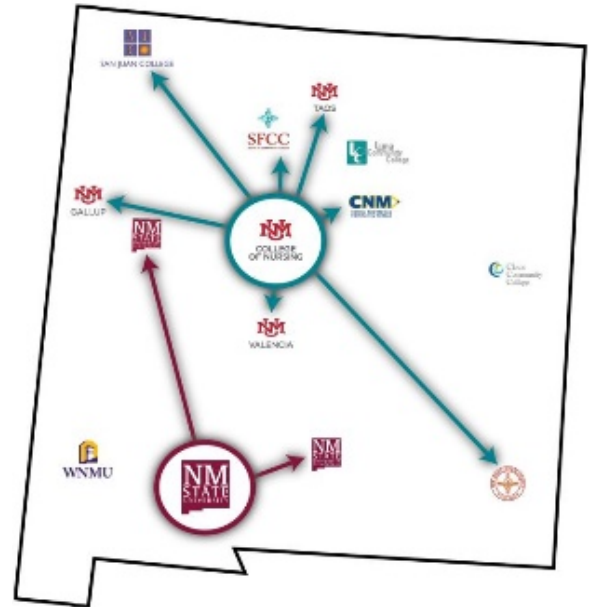

Statewide Collaboration

The New Mexico Nursing Education Consortium (NMNEC/"nem-nek") was developed in 2009 as a collaborative of state- and tribal-funded nursing programs across the state. The consortium has brought stability and quality to the nursing workforce supply through:

1. Implementing a common statewide common pre-licensure RN nursing curriculum
2. curriculum
3. Building nursing education partnerships between universities and community colleges
4. Developing multiple coordinated pathways into nursing education

Common Statewide Curriculum

Participating NMNEC nursing programs are all teaching the common statewide pre-licensure RN curriculum. This is a concept-based curriculum producing nurses who are patient-centered, who think critically, and are able to recognize the needs of patients. A conceptually-based curriculum promotes students' understanding and application of health/illness and professional nursing concepts in the provision of nursing care.

Opportunities/Outcomes

- Access and opportunity to enroll in a pre-licensure ADN or BSN program is available in all four quadrants of the state
- Students who receive their nursing degree "close to home" most often secure employment in their home communities
- Significant tuition savings (average of 50%) for Dual Degree students receiving their BSN education at a community college in partnership with a university
- Employers have a great sense of the preparation of NMNEC graduates throughout the state

Financially Support NMNEC

Meet with the professionals in your school's Foundation

to explore these options:

- Create a NMNEC endowment
 - Make a cash out-right donation for a specified use
 - Make a Planned Gift
 - Wills, trust, life insurance, retirement accounts, real estate, etc.
 - Contribute to an existing endowment established for NMNEC in a nursing program:
